

TVS Supply Chain Solutions and ALA Group Partner to Build Aerospace & Defence Supply Chain Platform

TVS Supply Chain Solutions (TVS SCS) (NSE: TVSSCS, BSE: 543965), a leading global supply chain solutions provider and one of India's largest and fastest-growing integrated supply chain companies, today announced the formation of a joint venture with ALA Group, an Italy-based aerospace and defence supply-chain integrator, to address opportunities in India's fast growing aerospace and defence sectors. TVS SCS will hold a 51% stake in the JV, while ALA will own the remaining 49%. The JV is expected to emerge as a significant growth driver for TVS SCS in India, with cumulative revenues projected to exceed ₹2,000 Cr by 2031.

Following the signing of a Memorandum of Understanding earlier this year, TVS SCS and ALA Group witnessed strong engagement and active interest from multiple industry participants across the aerospace and defence ecosystem. This momentum accelerated the decision to formalise the partnership through a dedicated joint venture platform. Aerospace and defence supply-chain solutions globally are characterised by specialised procurement, inventory management and mission-critical fulfilment capabilities, making them structurally higher-margin businesses with strong

returns on capital employed (RoCE). Quality companies in this sector have consistently delivered strong profitability metrics, with PBT margins in the range of 8-9%, reflective of this high-value segment. The JV will initially focus on opportunities in India, while TVS SCS and ALA will continue to evaluate opportunities to support aerospace and defence supply-chain requirements across select international markets over time.
